Chess Varsity BETA

Free chess coach and planner

Your tournament games hold the key to your next rating jump.

Most chess apps are made for playing online. Chess Varsity turns the games you battle through over the board into a coaching plan made just for you.

WHAT MAKES US DIFFERENT

Your USCF record, done for you
Type your USCF ID once. Every tournament, round, opponent and result appears by itself, with your rating journey and a month-by-month scorecard.

Snap it. Upload it. Learn from it.
Upload a PGN or tap in the moves, and keep a photo of your scoresheet with the game. Then see every move reviewed.

Catch the mistake you keep making
We study all your games together to find the habits costing you points, and show you exactly where they happened.

A coach's plan, built from your games
Know your top 3 priorities, your next rating milestone and what to train each day of the week.

Tournament weekends, sorted
Registration, fees, hotel and travel tracked for every event, and all your past and upcoming games in one schedule.

Ask about any move
Share a game with the community, get answers from fellow players, and earn points for helping others.

Level up with Openings · Model games · Attack academy · Think like a Grandmaster
